You must turn in a completed version of this form to the IPO prior to your departure in order to be registered. This form will be used to pre-register you for your time abroad with the ISEP or Bilateral exchange programs. You will be registered only as an ISEP or Bilateral student and not for specific courses. Please list the ISEP/Bilateral code for your institution above the boxes. The actual course titles will not be entered into the Bellarmine system until **after** we receive your transcripts from abroad. Below list all courses you plan to take, including some alternates. Show your advisor course descriptions to determine possible Bellarmine equivalents prior to departure. If actual course titles are not available prior to your departure, you will still need to discuss options with your advisor. **The foreign host institution courses which you list below are tentative and subject to availability upon your arrival. Upon your return from abroad, please make an appointment with the appropriate department chair(s) for the final approval of the course equivalents. If you are seeking approval for a course to count as an IDC 301 course, you will need approval from the current Core Director or DEAN of the CAS.**
