The Scotland of Adam Smith and David Hume: Politics and the Modern World

IDC 301 (3 Credits)

Come to Scotland and experience the country where many of the central political ideas of the modern world were created. Walk in the footsteps of eccentric geniuses like Adam Smith and David Hume and find out how their ideas have already molded your own thinking. Argue about their importance and legacy. Explore where they lived and learn about what they fought for and whom they fought against. We will be visiting Edinburgh, Glasgow, Kirkcaldy and the Scottish Highlands as we immerse ourselves in the world of the Scottish Enlightenment and thus better understand our political, social and economic life.
