Location

Kufstein is surrounded by high mountains and presents a breathtaking panorama. The contrast between the historic old town, the fortress and the nearby mountains strongly contribute to the atmosphere and attraction of Kufstein. Thus the city's nickname is 'The pearl of the Tyrol'. There are still countless picturesque old houses which bear witness of the medieval times when Kufstein was first given the rights of township. Lovingly restored they invite the visitors' imagination to picture for themselves what it must have been like 700 years ago. The mighty fortress in the centre gives one an idea of the important position which Kufstein held already in those days. The castle offers a wonderful panoramic view far out of the boundaries of the town and invites interested visitors to explore its old towers and vaults.
