

SUMMER 2013 Cost of Attendance Rationale

Students may attend school during the summer sessions. If students attend, a separate COA is required for that period of enrollment based on the amount of weeks the student is attending class. The summer school COA is a deviation of the preceding academic year COA. Bellarmine is a “trailer school” and treats summer as an extension or the ending of the award year. Bellarmine also combines all summer mini-sessions a student takes into one session for COA purposes. The combined mini-sessions create one summer term for awarding. All “per week” allowances will be multiplied by the number of weeks the student is enrolled for summer to determine that part of the summer COA. All “credit hour” allowances will be multiplied by the number of credits the student is taking to determine that part of the COA.
