

Costa Rica: Communication May 13-19, 2018

Application
Deadlines:

Priority: Dec. 1, 2017

Final: Jan. 5, 2018 (\$1,000 due)

International Technical Communication (IDC 401 or COMM 692)

Students will work with research in technical & visual communication & continue the work that began with previous classes as a collaboration with WaterStep, a local non-profit that installs water-purification systems around the world. They will install a water purification device & conduct research on technical documents used as part of this process. They will write a report of their findings & design new methods/materials for WaterStep to employ in their efforts.

Week 1: on campus May 7-10

Week 2: in Costa Rica May 13-19

Week 3: on campus May 21-24

Cost of **\$2,700** includes: meals, airfare, accommodations, day at the beach, & program related expenses (tuition not included).
