

IDC 301 Aging Across Cultures Explored in Australia

CCSA 2010
July 7th-29th

This course defines our community as the world. Caring for and about aging populations will be explored, as well as planning for long healthy lives. Students will meet and work with the people of Australia, truly experiencing how culture, political affiliation with England, climate, and geographic location, affect health and life-style, quality of life and end-of-life issues.

STUDY ABROAD – Down Under!

Possible excursions may include Canberra, Sydney, Melbourne and the Great Barrier Reef!
