

Bellarmino University Study Abroad Faculty Liaisons

Students who plan to spend a semester abroad MUST meet with their faculty liaison to discuss which classes in their major that may be taken overseas and to decide the best time to go abroad in their major. This is an important part of the study abroad preparation process. Students who wish to go abroad for the summer are also encouraged to meet with their faculty liaison to discuss their plans. For summer/winter abroad programs, all students who have met the course prerequisites and obtain the approval from the dept. chair may take the following general education classes abroad : IDC 301, fine art requirement, English literature requirement, theology elective, social science requirement.

Application procedures for all BU programs can be found here:
