Notes

- The reporting period for the 12-month enrollment component is July 1 of the previous calendar year to June 30 of the next calendar year. For example, for 2015-2016 the headcount includes all students enrolled from July 1, 2015 to June 30, 2016.
 - Per IPEDS, the following method is used to convert the credit hours reported to an indicator of full-time equivalent students:
 - Undergraduate credit hours are divided by 30, assuming a full-time student courseload of 15 credit hours per semester.
 - Graduate credit hours are divided by 24, assuming a full-time student courseload of 12 credit hours per semester.
 - Doctoral — professional practice (DPP) FTE student enrollment is permitted by IPEDS to be reported based on Bellarmine's definition of a full-time equivalent DPP student. This calculation also uses 24 as a divisor.
