

THE BELLARMINE INTERNSHIP GUARANTEE:

Economics

Bellarmine cares deeply about what happens after you graduate. We made the Internship Guarantee to help ensure your success now and in the future. Here are some ways to gain experience in your field:

Explore your career interests

- Register for BU199 Career Pathways Exploration, a 1-credit, 7-week course offered fall and spring to discover areas of interest in your major.
- Join the Economics and Finance Club to explore career paths, build your network, grow professionally with your peers.

Prepare for your internship experience

- Register for BU299 Internship Preparation and Success, a 1-credit, 7-week course designed to help you succeed in your internship search. BU299 is a prerequisite to receive the summer internship scholarship. *Take advantage of a 444 internship course for just \$400!*

Earn credit towards your degree

- Take ECON444 or BUSA444, a 3-credit hour internship course and gain a minimum of 90 hours of relevant work experience in your field.
- *Want to gain more experience?* Complete a second internship at home or abroad or consider a co-op and earn 6-credit hours for 180 hours of work with your internship partner.

**Experience matters!
Nearly 70% of
internships lead to
full-time job offers!**

Connecting Students to Career

10. YUM! Brands

PLAN AHEAD!

- **Reflect** on your goals for an internship. How will this experience contribute toward your personal, educational and professional goals?
- **Discuss** your internship plans with your faculty advisor to determine the best semester to take your ECON 444 or BUSA 444 internship course.
- **Meet** with the Career Development Center to explore internship opportunities and prep your application materials.
- **Review** internships posted on Handshake, visit employer websites, or attend a Career Center Event to meet with employers actively hiring in your field of study.
- **Apply** early. Depending on an employer's hiring timelines, internships can take up to six months to finalize.
- **Enroll** in your internship course. Once you've secured your experience, complete the Internship Application & Proposal in Handshake. *See the Career Center or your faculty sponsor for details.*

COMPLETE YOUR APPLICATION & PROPOSAL IN HANDSHAKE:

Writing learning outcomes is the most important part of the application, so take your time and be thorough in your response. Identify 3-5 learning outcomes, then provide examples as to how each learning outcome selected relate directly to the responsibilities included in the job description of your internship. Economics department learning outcomes include:

- Will demonstrate the ability to critique issues affecting the global economy.
- Will demonstrate quantitative literacy.
- Will demonstrate proficiency within the field of economics in both written and oral communication.
- Will demonstrate the critical thinking skills necessary to undertake original research in economics.
- Will demonstrate the ability to recognize and analyze ethical problems that arise in economics.

For example: *I will demonstrate a proficiency within the field of economics in both written and oral communication by working directly and virtually with advanced analytical modelers to prep data, analyze, model and present results*
