COMPLETE YOUR APPLICATION & PROPOSAL IN HANDSHAKE:

Your application & proposal will provide important details to your faculty about your experience. Writing learning outcomes is the most important part of the application, so take your time and be thorough in your response. Select the learning outcome, then describe how your learning outcomes relate directly to the responsibilities included in the job description of your internship. Finance department learning outcomes include:

- Achieve quality employment in a business field or pursue graduate education opportunities in business or related fields.
- Be able to accurately assess the financial position of organizations through examination of balance sheets, cash flow statements, financial ratios, and annual reports.
- Demonstrate the ability to recognize and analyze ethical problems, and choose and defend resolutions for practical solutions that occur in business.
- Be able to express themselves clearly and professionally in oral presentations.

For example: *I will demonstrate an understanding of the different ways to mitigate risk. This will be achieved through facilitating forward contracts to mitigate price inflation.*
