

Strength, Weaknesses, Opportunities and Threats Worksheet

- List anything, big or small, in any category that pops into your head.
- Nothing is right or wrong. This will not go on your permanent record.
- Don't worry about having something in each category or if something in the 'right' category.
- Don't limit your scope to the committee(s) you are on.
- Don't worry about stepping on anyone else's toes. We're all in this to make Veritas better.
- I've added some starter examples.
