

My Kentucky Adventures

Diego Mattiolo
Università Cattolica del Sacro
Cuore di Milano - ITALIA

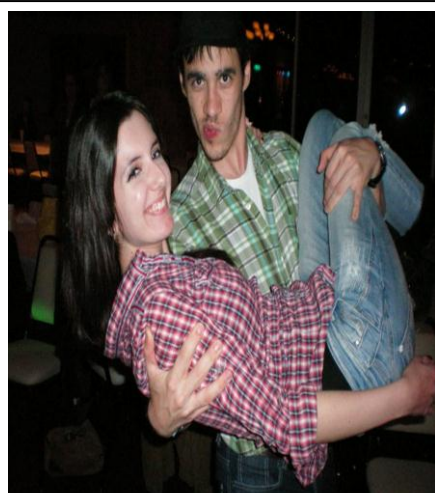

Major(s): Communications

Years/Term Abroad: Fall 2010

If I could do it over, I would... live it again the same way I did. Explore. Dream. Discover.

Name of program and why you chose to study at Bellarmine: Overseas Program. I chose Bellarmine because I wanted to live a real American College life experience in a small University where people actually know you.

Describe the Housing Situation: Living with a roommate is not always easy but... it's fun!

Best Memory: I auditioned and then was cast for a One-Acts Show! It was sooo much fun!

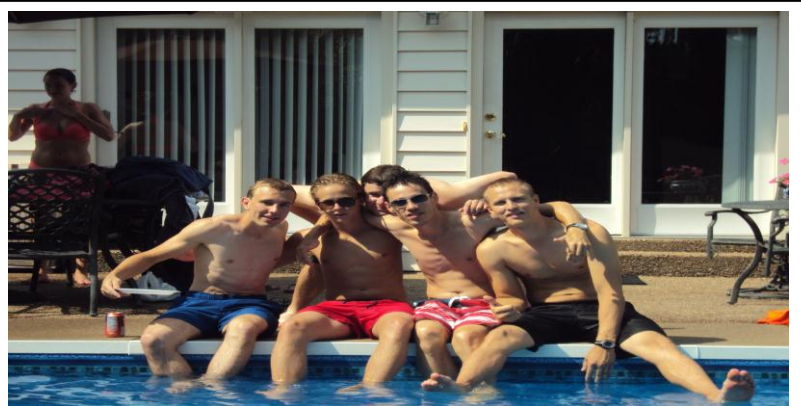

How has your experience at Bellarmine enriched your home university educational experience? During the lectures a lot of discussions took place, and that was a great way to develop my critical thinking skills.

Advice to future exchange participants to Bellarmine: Explore. Dream. Discover.

Greatest Challenge: I guess going to class everyday! This is something I'm not really used to. But it wasn't so difficult after all.

Experiences with Culture Shock or Reverse Culture Shock: Every celebration started one month before the actual day in which it is celebrated!

What you know now that you didn't know before going abroad: I can definitely tell that I really discovered the little tiny things that draw the line between cultures.

“Explore. Dream. Discover.”
